# FROM IDEA TO DISPATCH

## **01** YOUR IDEA – DESIGNS AND BLUEPRINT

It all starts with providing us with a blueprint of your clothing idea, from fabric and design to packaging of finished apparels.

## **02** PATTERN & SAMPLE MAKING

Pennyworth makes a sample of your clothing design which confirms mainly the design, quality of stitching, fitting, etc.

## **03** APPROVAL OF SAMPLE

Pennyworth will proceed if the sample you have received is perfect. If not, the sample is redeveloped in accordance with your revisions.

## **04** APPROVAL FOR PRODUCTION

The final step in our clothing factory is bulk production. The length of the lead time is usually determined by the order's design complexity.

## **05** DISPATCH

Your products are exported in a safely sealed packaging, via air or sea.
